

SIDE DOOR VAN RAMP

**NEW
AND IMPROVED
LOWER PROFILE**
(Patent Pending)

The side door van ramp, designed by PVI, folds into quarters leaving half of the door opening accessible. This ramp is mounted to the floor of the van. No assembly is required and it is easily installed.

The side door van ramp is all aluminum construction making it light in weight and easy to use.

It stores vertically inside of the door when not in use.

It is available in 6 foot or 7 foot lengths. A model is made to fit most vans. The ramp unfolds to a full platform making it ideal for wheelchairs and scooters. There is high traction tape on the surface of the ramp. Weight capacity is 600 lbs.

"Side Door Van Ramp" - Specifications					
ITEM NUMBER	LENGTH	WIDTH	FOLDED SIZE	WEIGHT	CAPACITY
SDR626	6 feet	26 inches	38" x 13" x 8 1/2"	26 lbs.	600 lbs.*
